Black Ops 3 is arguably the longest Call of Duty game. Most people report finishing the main story in about nine hours, which is certainly a respectable amount of time for a first-person shooter that releases just about annually.

"Call of Duty: Modern Warfare II" is the most realistic version of the game yet. The first-person shooter game has incorporated methods of photogrammetry and performance capture to transport our world into the world of "Modern Warfare," scanning in everything from Ghost's mask to fully-costumed characters.

The objective in ROULETTE is to predict the number on which the ball will land by placing one or more bets that cover that particular number. The wheel includes the numbers 1-36 plus a single 0 (or two zeros in American roulette). After the time allotted for betting has expired, the dealer releases the spinning ball within the roulette wheel. The ball will eventually come to rest in one of the numbered pockets within the wheel. You win if you have placed a bet that covers that particular number.
