Best FIFA23

betting sites online

The best FIFA esports betting sites will depend on where you are located in the world. For instance FIFA betting hotspots like the United Kingdom and the USA (some states) have regulated sports betting and you will be able to bet on esports at these sites. Australia is another country that has regulated betting sites and allows betting on the FIFA franchise. Basically whether you can bet on FIFA at one of the betting sites we advertise will depend on the laws that you are under.

For

instance, it might be heavily illegal to wager on Fifa in your country, but an online betting site might accept sign ups from there anyway, and are based overseas and can't be touched by the authorities in the country the player is from. Often these betting sites will be based in places like Curacao or Costa Rica, where there is less red tape for operators to get around. Plenty of these Fifa betting sites are legit though, it just takes a bit of research to work out which.

Fifa betting sites are accessible

across any platform with an internet connection and web browser, although many people in modern times choose to download apps for their smartphones. These FIFA betting apps

essentially allow you to have your bookie one click away at any moment.

Existing FIFA eSports leagues

One of the biggest FIFA initiatives in recent years was the launch of Major League Soccer's eSports competition, with each team in the American football competition boasting a representative playing under its colours.

Things went up a notch in 2024 with the formation of the ePL – the English Premier League's official esports league, open to FIFA 19 players all over the UK.

Major football leagues around the world which have also entered into professional eSports leagues include:

a-League (Australia)

eBundesliga (Germany)

eDivisie

(Netherlands)

eLigue 1 (France)

La Liga eSports (Spain)

There has even been a FIFA

academy set up called For FIFA Sake, which is aimed at identifying the best talent and encouraging professional clubs to sign them.

There is even an official tournament

sanctioned by the Federation Internationale de Football Association – the FIFA Global Series, where the best in the business play off for spots in the FIFA eWorld Cup Grand Final. Lead-in tournaments for the FIFA eWorld Cup include the Team of the Year Cup and Team of the Season Cup.

In 2024, EA Sports and the Union of European Football

Associations (UEFA) announced the formation of the eChampions League, where reps for the top teams in Europe will compete in the virtual equivalent of the world's greatest club competition.

How to bet on FIFA eSports

Most major online betting sites and

bookmakers offer markets on eSports, with FIFA e-leagues just one of the many events you can wager on.

Typically, because there is still so much unknown about the competitors in each competition, odds will not be framed until the weeks leading up to the event.

As these competitions become more mature over time, you can expect more futures betting, earlier markets and more bets available on the various competitions.

Some of the markets which you can expect in the future include head-to-head betting, outright winner and, looking into the crystal ball, things like tournament leading scorers, just like in major real-life football events.

FIFA 23

betting

FIFA 23 is just the latest in a long sequence of successful football games from EA Sports.

Recent years have brought enormous advances in gameplay, graphics and online play, as well as upgrades to offline modes and career features.

Major developments for

FIFA 23 include improved AI performance and more realistic ball movement, including better passing, better control in close and more realistic avenues to scoring.

FIFA

betting can be done via most of the top online betting sites around the world, although in comparison to other pro esports, there are not as many tournaments and leagues with markets available.

Some of the most common bet types available at FIFA betting sites

include head to head odds, outright tournament winner and even handicap betting.

Basically, anything FIFA betting sites can dream up, can be accessible.

wait to see what the future holds for FIFA.

The history of

the FIFA franchise

FIFA was first released in time for Christmas in 1993, but had been

in the pipelines in the late 1980s as computers became good enough to power games.

It

was notable for being the first game that was fully endorsed by the Federation

Internationale de Football Association, the self-appointed body which describes itself as the international body controlling football, futsal and beach soccer.

FIFA has been

available on PC and most consoles over the years and has gained a massive following

everywhere from the United States to the Asia Pacific region to Europe and the United

Kingdom. Since 2001, a strong rivalry has emerged between FIFA and Pro Evolution Soccer – Konami's virtual football series.

The game has now developed to the point where it

can support online leagues of all standards, with gameplay almost unrecognisable to

that of yesteryear thanks to lifelike graphics and unparalleled in-game options that

allow you to do everything a real-life team manager would do.

While esports is a

relatively new phenomenon, FIFA will undoubtedly grow as more of the big leagues around

the world embrace the opportunities and connections that lay in console and computer gaming.

The latest edition of FIFA, which is currently the version FIFA esports is

played on, is FIFA 23. This was released on September 27, 2024 to critical acclaim,

despite not having many differences to the prior version. One of the new features is

the ability to play various women's club football, including Women's Super League and

Division 1 Arkema. The game also included enhanced features for gameplay and new game modes.

FIFA 24 is expected to be launched in late September, 2024.
