For the

studio of this status Black Bull is a great game that's made it to the lobbies of many operators. Black Bull hit the market on 11.08.2024 offering popular gameplay and superior visuals. You can play free Black Bull test mode on clashofslots as a visitor with no registration required. Take a look at the game metrics to decide if that's the best option for you. Black Bull offers 96.51% return, High dispersion and x4500 win potential, max win. With a quite balanced math model and the possibility of the massive swings, the game is always thrilling. Overall, it delivers strong gaming experience. Black Bull appeals to those who prefer gameplay that has both traditional and original elements to it. If no feature gets activated, the base game is still interesting but once wilds, scatters or other special symbols or features land on the screen, it gets to the whole new level.

The Black Bull slot is played on a 5x4 playing field, winnings will be formed on 20 lines from left to right. Among the symbols implemented in the Black Bull slot, you will see card names (cheap symbols), as well as animals (expensive symbols), including a chameleon, a ram, an eagle, a wolf and the main hero of the slot is a black bull. The black bull is the most profitable symbol in the slot. Regardless of the value, all the symbols provided in the Black Bull slot can appear completely covering the reel.

Also in the Black Bull slot there are special symbols – wild (a bag of gold) and a money symbol (a gold coin with a picture of a bull). The Wild symbol can appear on all reels and is used to replace standard symbols. In addition, if a wild appears on the playing field at the same time as a money symbol, the value of the money symbol is assigned to the wild, and you get a win.

If 6 to 20 money symbols appear on

the playing field in one spin, you will get access to free spins. At the same time, the number of money symbols on the playing field affects the number of free spins available to you:

6-11 money symbols – awards six free spins

12-17 money symbols – awards eight

free spins

18-20 money symbols – awards ten free spins

Before the free spins start, the

money values visible on the symbols that started the round are summed up and transferred to a special counter. When wild symbols appear on the playing field, the amount on the counter is applied to each wild.
