Equilab is the world's leading app for equestrians. It lets you track the distance,
speed, gaits, and turns of your ride - all using your smartphone (and/or Apple Watch).
Plus, it keeps you safe while riding alone by letting family and friends track your
live location- so that they always know where you are. Download the app to join the
 world's largest equestrian community, with over one million users!
With Equilab, you
can effortlessly track your training sessions just by taking your iPhone and/or Apple
Watch with you when you ride. Our advanced gait analysis technology provides insights
so that you and your horse(s) can continue to grow. (Equilab's Premium subscription
allows users to track rides with just their standalone Apple Watch.)
For those who ride
alone and/or out in nature, Equilab helps you stay safe. By adding a safety contact in
 the app, you can ensure that your family and friends can always see where you are. They
will also receive an alert if you stop moving so that they can help. You wouldn't go
riding without your helmet, and Safety Tracking will help you stay even safer.
You can
use Equilab to:
1. Track every ride — use your phone or compatible Apple Watch when you
ride to analyze your gait, distance, time, and more.
2. Stay safe — enable family and
friends to track your location while riding so that they always know where you are.
(Premium feature)
3. Get motivated — ride more to complete Challenges and earn
achievements that help you and your friends grow as equestrians.
4. Celebrate progress
— show off your growth as an equestrian and celebrate your friends as they grow,
too.
5. Connect with other equestrians — chat with riders in your community or across
the world to share rides, photos, and more.
6. Organize your life — plan your routines
and coordinate trainers, vets, or co-riders with Equilab's shared calendars and
groups.

7. Monitor your health — Equilab integrates with Apple's HealthKit so that you can understand how your training impacts your fitness.

Equilab also helps simplify your equestrian life. Easily join groups and connect with friends, trainers, vets, farriers, and more to share rides, schedules, and other important information. As the largest community of equestrians in the world, Equilab makes coordinating with others easy. Our app is used by equestrians of all levels, from Olympic riders to weekend hobby riders. They ride and train in over 50 countries across 6 continents. We empower all riders - so no matter your level, Equilab can help you grow as an equestrian.

Equilab Premium Subscription

Our app offers a recurring subscription product that provides full access to safety tracking, advanced training details, weather history for your rides, a customized equestrian calendar, and more powerful features! You can purchase an Equilab Premium subscription for 1 month ($12.99), 6 months ($59.99), or 1 year ($99.99) (prices for users in the U.S.). A one-week free trial is available for all first-time users.

When you subscribe to Equilab Premium, you'll automatically be charged via your Apple account when you confirm the purchase. Your subscription will automatically renew unless canceled at least 24 hours before the end of the current billing period. Your account will be charged for renewal within 24 hours prior to the end of the current period. The user may manage subscriptions, and auto-renew may be turned off after purchase by going to the 'Manage Subscription' page of your Apple account (accessible your iPhone or iPad's Settings). Any unused portion of a free trial period (if offered) will be forfeited when the user purchases a subscription. Subscriptions will renew at the same cost, and Equilab will notify subscribers ahead of any pricing changes. If you decide to cancel, you will retain access to Equilab's Premium features until the end of the final billing period.
