Moving toward the modern car

You can drive more than just cars!

Self-propelling vehicles have been around since the end of the 1700s, but they didn't look at all like modern cars. A lot of early inventions were steam powered, but the problem with steam pressure and water supply is that... well, it takes a lot of water and pretty soon you'll run out of steam! These vintage vehicles looked cool, but they were much too impractical: in some cases, they could hardly transport a driver very far down the road let alone carry passengers or goods. The first modern cars were built in the late 1800s, with mass production beginning in the 1900s. In our car games you can drive your own steam-powered inventions and vintage models if that's what you're after. These games are usually a trial of endurance, just like the first ever car races! How long can you keep these relatively unsafe vehicles from crashing and exploding?

A wide

selection of online car games

If you're more about modern sports cars and racing

vehicles, then we've got you covered as well. While modern cars have more crowded dashboards with all kinds of technology like navigation systems, entertainment systems, and parking assistance, they're much easier to manage than the controls of classic cars! You may have to deal with a more crowded parking lot in your parking games, or a busier road in your traffic management games, but at least we don't have to manually time the ignition and crank the engine anymore! Besides, modern sports cars are a lot faster, too! If you've had your absolute fill of cars after visiting our free car game catalogue and you're ready to try driving a motorcycle, kart, truck, or some other vehicle, try out our driving games for the best titles online! Enjoy playing!
