É extremamente confortável se dizer o que quer, sem que a outra parte possa se defender ou mostrar as ridículas incoerências dos comentaristas de plantão. Agora é minha vez.

Se defender do que? Você foi orientado, avisado e, somente então, bloqueado.

Seu bloqueio foi revisto e considerado corre(c)to.

Vou responder aqui mesmo para facilitar a compreensão da conversa: A única coisa que vc faz aqui é matraquear a mesma coisa como argumento: vc foi orientado e avisado.

Reactoonz review

Theme and Storyline

Reactoonz takes you into a strange world of jelly-like monsters presided over by a serenely smiling alien creature. These adorable little critters combine onscreen to make winning combinations for you and in the process fuel the alien's bonus powering energy orbs.

It is a little difficult to work

out what kind of story serves as context for this world, but it is easy to say that it is a world that is a lot of fun to look at and mess around in.

Symbols in Reactoonz

slot take form of various monsters

Graphics, Sounds and Animations

The graphics are

beautifully rendered and come with plenty of flavour animations for wins, bonuses and the many dials and counters which fill up over the course of gameplay. The result is a visual feast in which there is always something to look at and plenty of surprises waiting around the corners.

The music like many slot machines is a bit invasive and repetitive but if you don't like it, it is easily turned off and the rest of the sound design is a delight with all manner of sci-fi whooshes and pings.

Gameplay

Powered by

Play'n'Go software, Reactoonz is one a growing family of slot machines that are making use of the sophistication of computer software to change up the typical reel based slot machine. Here the mechanic is a cascade, where the monsters fall down as tiles onto a seven by seven grid.

Winning combinations – which are made up of any 5 or more matching monsters that touch horizontally or vertically – are removed from the game and the tiles above them fall allowing opportunities for new combinations to form. If the new tiles trigger another win it all goes into your win for that "spin".

On top of this are

a series of fun bonus features which are described in full below.

Overall the gameplay

works well with the visuals to make for a fun, constantly changing and very flashy slot machine.

Same 4 symbols in 2x2 grid change into Giantoon symbol with a multiplier

Wilds, Bonuses and Free Spins

There are a number of bonus outcomes. Rather

than being triggered by symbols they are triggered by specific game outcomes.

If you

win nothing on a spin, the alien (known as Gargantoon) may drop four to eight wild symbols onto the grid.

There are also a series of what are known as "Quantum Features".

These result from charges which are generated when you win. If you win enough times in one spin to trigger a Quantum feature, they will trigger. There are four Quantum features which have effects ranging from destroying all the one-eyed monsters on the grid, to turning three to six symbols wild at random and destroying the adjacent symbols (see the image for full details).

Bonus features are called Quantum features in Reactoonz slot machine

Every spin a random type one-eyed monster is selected and

highlighted. If any of the highlighted monsters are part of a win, when they are removed from the grid, they leave behind two Wild symbols.

Wild symbols only appear

when triggered by an event.

You can also win multipliers should four of the same symbol

fall in a square shape. A two by two square results in a large x2 monster called a Giantoon that then occupies that space. The Giantoon counts as four symbols for the purpose of payouts.

Bet Sizes, RTP and Variance

The RTP of 96.51% is more or less the

industry average and so doesn't impress but also doesn't detract.

The game is highly

volatile, rarely paying out much on any given spin but with the occasional monster win.

The maximum win is 4570 times your bet per spin.

Paytable of Reactoonz slot

Bet

sizing is done on a bet per spin system which makes calculating payouts easy but limits the amount of control you have. While this depends on the site you use, the one we tested allowed a range between £/\$/€0.20 and £/\$/€100.00 with a series of fixed bet sizes in-between.

Conclusion

Reactoonz is a fun and stylish slot with a lot going on for those who like their games with constant action.

Behind the lively animation, there

are also a few nice features and as solid RTP.

It is not the best game in its class,

but it does a decent job of it, and seems to be doing well with players given its popularity.
