What is the most successful roulette strategy? While there is no strategy that can guarantee a profit in the long run when playing roulette, the Martingale betting system is often regarded as the most successful strategy. It is easy to use and can provide good returns.

Although roulette is a game of chance, you can win big money by playing high-risk, single number bets which pay out better than group or combination bets. Single pockets pay out 35:1 for example, so you can get a decent prize if your single number comes up as the winner.

How to Play Online Roulette

There are five basic

rules in the roulette strategy, that you need to consider when learning how to play roulette online. Firstly, you'll have to place bets on the number or colour you believe the ball will land on the spinning online roulette wheel.

The croupier then places the

ball onto a spinning roulette wheel. Players can actually place bets in the meantime, until they declare "no more bets".

At this point, you can't make any more bets in that

round. The ball eventually lands on a number on the roulette wheel. Those who bet on the correct number, colour or section then receive winnings based on their relative roulette betting odds.

Strategy & Tips

Let's take a look at the most common roulette strategies that people have been using around the world to earn chips at the tables.

Martingale Strategy

Reverse Martingale Strategy With this strategy, instead of doubling your bets when you lose, the idea is to increase your wagers when you win and reduce them when you lose a bet. This is designed for players to maximise 'hot' winning streaks. D'Alembert

Strategy This roulette betting method requires you to increase your wager by a single unit after a loss and decrease it by a single unit after a win. Fibonacci Strategy The

Fibonacci strategy requires you to place a wager by adding the last two bets together. Within this method, it can be possible to leave a roulette table with a profit, even if you lose more wagers than you win.

It's important to think about the

house edge when you play any game of online roulette. The American roulette version contains a double zero as well as a single zero, resulting in a house edge of 5.26%.

Meanwhile European and French roulette versions only have a single zero on the wheel, resulting in a house edge of just 2.7%.

This means that for every 100 credits you play

at an American roulette wheel, you are statistically likely to lose 5.26 credits, compared with just 2.7 credits for every 100 credits wagered at a European or French roulette table.

### **La "sombra" de Margaret Thatcher continúa persiguiendo al Reino Unido**

Más de una década después de su muerte y 34 años desde que dejó Downing Street, Margaret Thatcher sigue siendo una presencia constante en el Reino Unido. Desde la imitación de Liz Truss como la "Dama de Hierro" hasta las comparaciones de Rishi Sunak entre "la hija del tendero y el hijo del farmacéutico", sigue siendo invocada como la solución mágica a los males actuales, a pesar de que muchas de las crisis del Reino Unido comenzaron con sus políticas.

**Una de sus políticas más dolorosas es el "derecho a comprar", que permite a los inquilinos de viviendas sociales adquirir su propiedad con descuento y convertirse en parte de la "democracia propietaria".**

Desde su implementación en 1980, más de 2 millones de viviendas han pasado del sector público al privado. Las restricciones que impiden a los concejos gastar el dinero de las ventas en nuevas viviendas han llevado a la pérdida neta promedio de 24.000 viviendas sociales al año desde 1991, agravando la cada vez más grave crisis de vivienda del país y la situación frágil de millones de personas.

### **El "derecho a comprar" sigue estando presente en la política actual del Reino Unido**

Ejemplos de ello son la situación de la candidata laborista Angela Rayner y el controvertido caso de su vivienda comprada con un descuento del 25% en 2007, y vendida ocho años más tarde. También está presente en la historia del director de campaña de Keir Starmer, Morgan McSweeney, cuyas experiencias en Barking and Dagenham influenciaron su visión de la importancia de mantener el apoyo de la clase trabajadora en el partido laborista.

### **Influyentes voces dentro y fuera del Partido Laborista abogan por el final del "derecho a comprar"**

En Escocia y Gales ya se han eliminado las versiones locales de esta política, y en Inglaterra el Partido Laborista ha prometido acabar con ella. El alcalde de Gran Manchester, Andy Burnham, ha llamado recientemente a cambiar las reglas del "derecho a comprar" en nuevas propiedades.

## **Los efectos del "derecho a comprar" se sienten en todo el país**

Desde el distrito de South Hams en Devon, donde el líder del concejo, Julian Brazil, señaló la necesidad de reemplazar las viviendas vendidas a través de este programa, hasta Londres, donde la venta de viviendas sociales está transformando los vecindarios y destruyendo la sensación de comunidad.
