The popularity of slot games

Slot games are a clear favorite of players at both land-based and online casinos. From the physical cabinets to the latest development of video slots, there's an abundance of slots with reels ready to be spun. Game developers around the world are releasing new games on a frequent basis with new themes, twists, and turns. Some make it big while others flop, but as a game category in general, slots are surely an ever-growing favorite.

While slots might be associated with gambling and real money bets, you absolutely do not have to spend money in order to be able to enjoy slots online. In fact, most online slots can be played for free. And here at Temple of Games that is exactly what you will find – a grand and varied selection of slot games that can be played directly without any registration, downloading, or deposits needed.

How free slots work

Slots are a game of chance where there is no strategy or expertise needed to understand and play the game. The game interface normally features a set of reels with a set of rows each – for example a 5x3 grid with five reels that feature three symbols each. Some might also have a different, more modern setup with for example cluster pays or winnings payed from all over the grid.

The aim of the game

is to match symbols in lines, combinations or clusters that create a win. The exact setup and rules might differ slightly depending on the exact game, but normally you will have to have at least three of the same symbol appearing adjacent in a payline in order for it to result in a win. Most slots also come with special symbols such as wilds and scatters as well as bonus features.

Free slots are not special games that are

developed for free play only. In most cases, they are exactly the same games that can be played with real money in online casinos, but offered in a so-called "demo mode".

With this mode, the games are played using play money so that you can still adjust and make "bets" and see how much you "win", without any risk. The credits you play with are simply waiting in the game as you open it. You won't be able to win any real money, but you also don't have the risk of losing anything.

Even though there are no real money transactions involved in free slots played in demo mode, the games are just as thrilling as the real deal. The demo games offer exactly the same setup and features as the real-money version. This often includes various bonus features such as free spin rounds and multipliers. Often, these features are triggered by special symbols.

How to play free slot machines

As free slots don't require any deposit, it is very easy to get started. Here at Temple of Games, you will find an impressive selection of online slot games that can all be played for free. We also offer free roulette and other casino games for free. All you have to do is to find which games you want to play and click to start them.

If you are new to online slots, you might not know where to get started.

That is why we have some different filtering options available so that you can narrow your search based on your preferences. You can for example filter by the theme of the slots, from classic fruit slots to more intricate video slots. You can also filter by the game provider that has developed the games if you are familiar with brands such as NetEnt and Microgaming. Finally, if you already have a favorite slot game that you know the name of, you can search for it directly.

Play on the device you prefer

While online

casinos and slot games were first introduced to the desktop computers of the 90s, a lot has happened since then. Today, many players prefer to play directly from their mobile – and luckily most slot games can be played via mobile devices. You do not need to download any application or software to your phone in order to access them. Just open the website in your mobile browser and click on a game to launch it directly in your browser. That way, you can play some free slots online on your commute, before bed, or whenever and wherever you wish.
