At a minimum, withdrawals may take 24 hours

to clear due to all withdrawal requests going through a review process.

It's worth

noting that even though some of the withdrawal methods detailed below can transfer funds immediately, Bwin reviews all withdrawal requests, adding up to 24 hours to the process. However, their terms and conditions suggest this can sometimes take up to two business days.

One of the reasons we encourage you to read our deposits and withdrawal articles is because the methods available for each often vary, which is vital to factor in because of the closed-loop policy.

We touched upon the closed-loop policy in our

deposit article since there is a link between your deposit and withdrawal method. You can read more about the policy and what it means for you in our article on the closed-loop policy .

Make sure you fully understand the offer you chose to use because

some have a minimum play requirement before you can withdraw any cash winnings.

Lucky

you! You have funds to withdraw from your Bwin account. Whether you won via one of Bwin's new customer bonus offers or happened to pop online for a quick flutter, it's good to know the Bwin withdrawal process before you get started.

Bank Transfer

Withdraw

a minimum of £10, which will reach your bank in 3 - 5 business days.

Withdrawals by

Bank Transfer take 3-5 banking days, in addition to the Bwin processing times, meaning you could potentially wait up to 7 working days for your funds.

Instant

Banking

Withdraw funds instantly.

Using open banking protocols it is possible to access your funds instantly using instant banking. It is worth remembering that this is in addition to the internal processing times at Bwin, so could take up to working days in some instances.

Debit Card

Withdraw a minimum of £10 from your Bwin account and have funds reach your bank in 3 - 5 days.

Whether you withdraw via Maestro, Visa or MasterCard Debit Card, the withdrawal time will be 3 - 5 days. This is quite long when you consider that other online betting platforms can instantly transfer funds via Debit Card.

Bwin does not stipulate a maximum withdrawal limit, but it tends to be the case that you should make higher withdrawals (up to £100,000) via Bank Transfer.

Visa Fast

Funds

Funds can reach your bank account in 4 hours, and there's no weekend delay.

Visa

Fast Funds isn't currently available to all Visa Debit Cards, but if it's available to you, it's the fastest way to receive your winnings.

If you used a Visa Debit Card to

add funds to your Bwin account, it would be made available as a withdrawal option. If Fast Funds is available for your card, you'll see a stopwatch symbol next to your card details.

However, Bwin stipulates that some transactions will require additional checks, which may take longer than four hours.

Neteller

Funds can reach your account in

up to 24 hours. Withdraw a minimum of £10, with no stipulated maximum.

Once again, your

Neteller withdrawal can reach your account instantly. However, there's always the catch that Bwin may review the withdrawal request, causing a delay of up to 24 hours.

Although we couldn't find a maximum withdrawal amount specified in Bwin UK terms and conditions, the US site does stipulate a maximum withdrawal of R\$50,000, which is just over £40,000. It's probably best to keep to this maximum and opt for a bank transfer if you wish to withdraw a higher amount.

PayPal

Withdraw a minimum of £10, and funds will be in your account within 24 hours.

As with the other e-wallets, your

withdrawn funds can reach your PayPal instantly. However, Bwin always adds the caveat that it could be up to 24 hours.

Bwin does not specify a maximum withdrawal limit, but

PayPal do, so you may be limited to withdrawing a maximum of £1500 per transaction, capped at £7500 per month. You'll need to speak to PayPal directly if you want to increase this limit.

Paysafecard

Funds are returned to your Paysafecard account in up

to 24 hours. Bwin set no maximum withdrawal limit, but there is a minimum withdrawal of £10.

When you withdraw cash to your Paysafecard, it stays in your Paysafecard account

and cannot be withdrawn as cash. Instead, you can use it to fund online purchases.

Although Bwin does not specify a maximum withdrawal limit, Paysafecard's website does suggest a R\$300 per transaction limit (approx. £240). Hence, it isn't the best option for transferring more significant amounts or if you want to be able to withdraw as cash.

If you used it to fund your winning stake, you'd have to withdraw some of your winnings to your Paysafecard. After that, you'll be able to choose another method.

Skrill

Withdraw a minimum of £10, which could instantly be in your account.

It probably doesn't need to be said at this point. However, for clarity, we'll say it.

There's no such thing as guaranteed instant transfer with Bwin. Skrill can accept instant transfers, but with the additional Bwin checks, it could take up to 24 hours.

Although Bwin doesn't specify a maximum withdrawal fee, the Skrill website suggests a limit of £12,240 per transfer for UK customers.

How to Withdraw Funds

Per

the image below, you can access your Bwin account from every screen on Bwin's site.

Accessing your Bwin account and balance for withdrawals

Since we set up our account with Bwin to write this guide, we don't have any funds to withdraw, so we cannot go through all the screens. However, as with the deposit process, you'll be shown all methods available to you.

Making a withdrawal from Bwin

Given our experience with the limited depositing methods, not all approved withdrawal methods may be listed in your account. Contacting Bwin should help with that, especially if there's an issue with withdrawing by the method you used to deposit.

In cases where the method you used to deposit funds isn't available as a withdrawal method, such as Luxon Pay, you'll need Bwin's support to get around the closed-loop policy. This may require additional verification and could incur a transaction fee.

Always Bet Responsibly

You'll see in

the above image that we have a 'Pending Task' to complete on our account. When we investigated it, it took us to a Safer Gambling tool that we could complete to ensure our gaming habits remained safe.

One of the reasons people get addicted to gambling is because of the feeling they get when they win. When you have those winnings sitting in your balance, it's tempting to try your luck again.

You may play the odds again and win, but it's never a guarantee. You should always bet within your limits, and that includes your winnings. Take the time to think about which account having that money in will benefit you most.

Unaccepted Withdrawal Methods

We've mentioned above that some methods are approved for depositing funds that aren't listed for withdrawals. That's why it's essential to read our article on depositing funds into your Bwin account so you know what you can expect when it's time to withdraw.

Google Pay - You can deposit

funds via Google Pay, but it isn't an accepted withdrawal method. You must contact Bwin for withdrawal support if you deposited funds via Google Pay.

Erupção do Vulcão Mount Kanlaon no Filipinas: Evacuação de Moradores

Centenas de residentes que vivem perto do Monte Kanlaon nas Filipinas foram ordenados a evacuar na terça-feira, após o vulcão entrar em erupção, enviando uma coluna de cinzas de três milhas de altura (cinco quilômetros) para o céu, o que causou a cancelamento de vários voos.

O Instituto Filipino de Vulcanologia e Sismologia (Phivolcs) disse que o Monte Kanlaon entrou em erupção por seis minutos na noite de segunda-feira, causando um "forte terremoto", enquanto a agência advertia que a queda de cinzas e o odor de enxofre afetariam as aldeias vizinhas.

Quarenta e três sismos vulcânicos foram registrados nas 24 horas até à meia-noite da segunda-feira, de acordo com o resumo do vulcão da agência.

Imagens nas redes sociais mostraram uma nuvem de cinzas saindo para o céu noturno estrelado. Outros mostraram uma espessa cobertura de cinzas cobrindo as aldeias vizinhas.

Mais de 60 voos de três transportadoras domésticas foram cancelados durante a noite, afetando mais de 5.000 passageiros, de acordo com a Autoridade de Aviação Civil das Filipinas.

O Aeroporto de Bacolod-Silay retomou as operações às 11h da manhã da terça-feira, mas os passageiros devem esperar atrasos.

Desde que o nível de alerta no vulcão foi elevado para 2 de um possível 5 na terça-feira, os funcionários do governo local ordenaram a evacuação obrigatória de todos os residentes que vivem dentro de um raio de 3 quilômetros (1,8 milhas) do vulcão.

"Descer para os respectivos centros de evacuação, ser vigilante e se preparar para coisas importantes, como água e alimentos", disse Jose Chubasco Cardenas, prefeito de Canlaon City, na província de Negros Oriental, em um post do Facebook.

Situado em Negros, a quarta ilha mais populosa do arquipélago, o Monte Kanlaon é um de 24 vulcões ativos sísmicos no país.

Ele atravessa duas províncias e fica no ponto mais alto da ilha, com uma elevação de 8.086 pés (2.465 metros) acima do nível do mar.

As Filipinas estão localizadas ao longo da Linha de Fogo, uma faixa de 25.000 milhas (40.000 quilômetros) de falhas sísmicas ao redor do Oceano Pacífico que hospeda mais da metade dos vulcões do mundo.
